

TCS NQT Preparation Plan

Daily Study Plan

- Numerical Ability – 2 Hours
- Verbal Ability – 1 Hour
- Advanced Coding – 1 Hour

Numerical Ability - Foundation Topics

- Statistics
- Percentage (Most Important)
- Time and Work
- Area and Mensuration
- Number System
- Linear Equations
- Data Interpretation
- HCF and LCM
- Simple Interest
- Compound Interest
- Profit and Loss
- Speed, Distance and Time
- Ratio and Proportion
- Permutation and Combination
- Probability
- Partnership
- Mixtures

Advanced Quantitative Aptitude

- Averages
- Profit and Loss
- HCF and LCM
- Permutation and Combination
- Probability
- Geometry
- Mensuration
- Puzzles
- Partnership
- Number System
- Time and Work
- Time, Speed and Distance
- Simple and Compound Interest
- Progressions
- Logarithms

Verbal Ability (Foundation)

- Reading Comprehension
- Sentence Correction
- Sentence Completion
- Error Identification
- Synonyms and Antonyms
- Sentence/Paragraph Rearrangement
- Fill in the Blanks
- Prepositions, Articles, Tenses, Conjunctions

Advanced Coding

- Object-Oriented Programming (OOPs)
- Algorithms
- Programs
- Control Statements
- Strings
- Data Structures: Linked List, Stack, Queue, Tree, Graph
- Scenario and Logical-Based Problems
- String Operations
- Number Series Patterns
- Shortest Path Algorithms
- Logical Calculation Problems
- Time and Space Complexity (Hard Level)
