

Problem Statement

Millions of skilled workers in India struggle to find consistent work due to lack of digital access, poor visibility, and dependence on middlemen. At the same time, people and businesses find it difficult to hire verified, nearby service providers. Most platforms today focus only on urban or white-collar jobs, leaving skilled trade workers behind. There's a clear gap between skill availability and service demand. SkillBridge aims to bridge this gap with a smart, AI-powered platform that connects skilled individuals directly with real job opportunities.

PROFILE SUMMARY :

IT student who has experience with full-stack development, networking, and backend systems. Proficient in Java, Python, and C++, with excellent background in data structures, algorithms, and Linux. CCNA qualified and committed to creating scalable, secure software solutions. Active participant in tech projects and workshops; fast learner with excellent problem-solving skills. Enthusiastic to work on meaningful software projects and develop from practical experience.

EDUCATION:

Bachelor of Technology in Information Technology, <i>G.H Rasoni College of Engineering and Management, Wagholi</i>	11/2022 – 05/2026
HSC (Science), <i>Brilliant Academy Junior College of Science, Karad</i> • Studied Physics, Mathematics and Chemistry • Percentage: 81.17%	2021 – 2022
SSC, <i>Shivanjali English Medium School, Patan</i> • Percentage: 87.8%	2019 – 2020

TECHNICAL SKILLS:

Programming — Java, Python, C++, PHP • **Web Technologies** — HTML, CSS, JavaScript, React •
Networking & Security — CCNA, TCP/IP, LAN/WAN, Routing & Switching, Firewall Configurations •
Databases — MySQL, PostgreSQL • **Tools** — Wireshark, Cisco Packet Tracer, Git, VS Code

TECHNICAL PROJECTS:

TENDER MANAGEMENT SYSTEM

- Developed a full-stack Online Tender Management System using PHP, MySQL, HTML, and CSS.
- Enabled secure digital bid submission and evaluation for procurement processes.
- Implemented role-based access control and automated notifications.
- Included features for users to search, view, and book lodges based on preferences

CERTIFICATIONS:

- Infosys Springboard: DSA using Java, Software Engineering and Agile, Programming using Java
- Udemy – Quantization for GenAI Model, Web Development, Python
- CCNA 200-301:Network Fundamentals Course
- Bank of America & JPMorgan Chase - Investment Banking Job Simulation
- Goldman Sachs -Operations Job Simulation

WORKSHOPS & TRAINING:

IEEE Workshop -, *Artificial Intelligence GH Rasoni College of Engineering and Management, Pune*

IBM -, *Getting Started with Enterprise Data Science*

IBM -, *Getting started with Threat Intelligence and Hunting*

IIT Bombay Training,

Advanced C++, Python 3.4.3, RDBMS PostgreSQL, Java, JavaScript, Android App Using Kotlin

Hackathon-, *Code Vista 3.0 , Codechef*
